PEARL HIGH SCHOOL NOTES.

Never before in the history of this school have prospects been so bright for a successful year. Teachers and pupils appear to be glad that school days have come again and all seem ready for a year of hard work. From the experience of the past two weeks, one would conclude that some good resolutions had been made during the summer and new hopes created in the bosom of the children. They are going at their work with a will and a determination which means the highest success. The school is crowded. There is not a vacant seat and chairs and the laps of desks have to be used in order to accommodate the children. The principal sticks to his rule of past years to seat every pupil, and to turn no one away unseated. Bad children have no terrors for the faculty of this school. If there is a vacancy a bad child is as welcome to it as a good one. This faculty regards a mean, disobedient, stupid or idle boy as good material to show their skill as teachers. It may not be generally known that this public institution has on its faculty eight college graduates, some of whom have also won professional degrees. No other High School in the country can show a faculty better trained or educated.

The addition of Prof. Hardy Keith and Miss Elizabeth Moore, who have charge of the Manual Training and Domestic Science Departments respectively increases the standing and dignity of the school. In selecting these two new teachers, great care was exercised to see that the standard of culture and scholarship was heightened instead of lowered. Already they have won the love and esteem of their pupils and paved the way for brilliant success this year.

The Manual Training Department is simply grand. The furniture is beautiful. The kitchen is a perfect picture and the dining room will be a model of its kind. The coal and gas ranges that were presented to the department by certain public-spirited colored citizens are the finest made and make a handsome showing in the kitchen.

The names of these citizens who responded so readily with their cash to assist in fitting up this kitchen will be found below. These men regarded it an honor and an opportunity to present these ranges to the school for use by the colored children.

Dr. R. H. Boyd, that big-hearted man, who never yet has refused to respond to a call in any movement that tended to uplift his people very graciously gave a \$60 sewing machine for the sewing department. But, Mr. Editor, this report is already too long. Other schools wish to have a word to say and your reporter will continue this article next week.

List of contributors to ranges: Rev. S. E. Griggs, Hon. J. W. Grant, Hon. A. N. Johnson, Rev. Preston Taylor, Dr. E. B. Jefferson, Hon. J. C. Napier, Dr. J. H. Hale, Dr. A. M. Townsend, Dr. J. B. Singleton, Dr. J. T. Wilson, Mr. W. T. Hightower, Mr. C. S. Rands, Mr. P. W. Adams, Prof. F. G. Smith.
